Lynx Technology Partners FISMA/NIST
Compliance and Security Consulting Services for Higher Education

Lower your risk and increase efficiency in meeting your university's comprehensive security compliance needs with Lynx's leading subject matter experts, tools, and processes.

Implement and demonstrate compliance with **FISMA/ NIST security controls** or risk losing federal funding. That is the challenge higher education institutions face. Yet few universities and colleges have the security and compliance expertise or resources required to plan, implement, assess, and continuously monitor evolving risks as needed for FISMA/NIST compliance. That's where Lynx Technology Partners come in.

The certified security professionals at Lynx Technology Partners can guide and support your team through any single element of FISMA compliance or across the **full 6-step NIST Risk Management Framework process**: System Categorization, Control Selection, Control Implementation, Control Assessment, Authorization, and Continuous Monitoring.

Whether your IT systems are managed in-house or by a third party, **you can always trust Lynx consultants** for rapid project implementation, best practice insights for achieving compliance, and ongoing support to help your institution monitor and maintain compliance.

ABOUT LYNX

Lynx Technology Partners is the trusted Information Security and Risk Management Advisor that customers in highly-regulated industries worldwide depend on to improve security posture, facilitate compliance, reduce risk, and refine operational efficiency. With world-class skills and knowledge capital built over 30 years, Lynx security experts help customers recognize and control IT-related risks and maintain compliance with major industry and government standards. Through consulting, security and risk assessments, penetration testing, managed security services, and an award-winning GRC solution, Lynx supports many critical projects for security-conscious leaders in Financial Services, Federal, Energy, Healthcare, State Government, and Higher Education. Compliance Benefits

Seamless Security Program Management: Adding complexity to your resource management is the last thing you need. When you work with Lynx , we'll closely collaborate with both your internal team and your other security vendors to ensure that FISMA/NIST requirements are met across all projects, providing flexible yet consistent support even as development schedules and timelines evolve.

Experienced, Certified Consultants: Leverage the strong architecture and compliance expertise of Lynx consultants—a mastery acquired from years of serving highly regulated and secure organizations in Government, Healthcare, Finance, and Energy. Our consultants can join your team to advise and assist in completing all requirements and documentation to satisfy FISMA/NIST 3rd party security assessments.

Efficient, Thorough Risk Assessment: Lynx Technology Partner's certified team, tools, and processes provide extensive reporting and documentation that simplifies and speeds up meeting your institution's comprehensive compliance requirements. Our agile compliance teams work fast and can adjust quickly to changing requirements and timelines.

Continuous Monitoring: Maintain FISMA/NIST compliance, reduce security risk, and maximize your return on investment with cost-effective, ongoing monitoring tools and services you can count on from Lynx Technology Partners.
